Abstract (en)

[origin: EP2698323A2] The cup (1) has a glass cup (2) including a lid retainer (4) i.e. lip, in a region of an upper opening (3). A metal lid is fastened at the retainer. A casing region (5) lies below the retainer. A shell region (6) is guided upto a bottom (7) of the glass cup below the casing region. The casing region is conically designed. The casing region directly begins below the retainer. The retainer has a height of smaller than 6 mm. The casing region has a casing length ranging between 20 mm and 70 mm. A label is attached on the casing region. The metal lid includes an opening closed by a plastic part.
