Abstract (en)

[origin: EP2700758A2] The handle (1) has two spaced apart support portions (2-1,2-2) which are fixed at two spaced-apart through-holes of a bathtub. One of the support portion designed as overflow channel is connected with outer side-to-install overflow portion and installed at through hole. A rotating element such as switch or keyboard is provided for opening and closing the drain valve of bathtub. An independent claim is included for waste and overflow fitting.
