Abstract (en)

[origin: EP2700780A1] The window lining assembly is composed by a window lining (2) and a lining frame (3). Several mounting fittings (9) connect the lining frame (3) to the window lining (2), each mounting fitting including a first leg (941) for connection to a lining frame piece, and a second leg (942) for connection to a lining panel of the window lining. The first leg (941) of each mounting fitting (9) has a length extending between a first end (913) and a second end (914) exceeding the distance between protruding flanges (315, 314) of the lining frame piece (31), and a width extending between a first side (941 a) and a second side (941 b) not exceeding the distance between the protruding flanges (315, 314).
