Abstract (en)

[origin: WO2012149981A1] The present invention refers to a method for providing metering information comprising the steps of receiving a service profile (101), detecting a privacy level (102), determining a privacy profile on the basis of the service profile and the detected privacy level (103), and providing over a communication network the metering information in accordance to the determined privacy profile (105). Furthermore, an apparatus and a system are suggested for providing metering information.
