Abstract (en)  
[origin: WO2012149943A1] The present invention relates to a gambling and/or gaming apparatus comprising an input apparatus for inputting a piece of stake and/or playing-tip information in the form of a number and/or a combination of numbers and/or a number matrix, an outcome ascertainment apparatus for ascertaining a winning number and/or a winning number combination and/or a winning number matrix, an indicator apparatus for indicating the ascertained winning number and/or the ascertained winning number combination and/or the ascertained winning number matrix, and a win ascertainment apparatus for ascertaining a gambling or gaming win from a comparison of the ascertained winning number and/or the ascertained winning number combination and/or the ascertained winning number matrix with the input stake and/or playing-tip information. According to the invention, the outcome ascertainment apparatus of the gambling and/or gaming apparatus, which is used to ascertain the winning number, winning number combination and/or winning number matrix, comprises a monitoring apparatus for monitoring at least one game of skill/skilled sport installation on which a game of skill/skilled sport which provides at least one game outcome can be executed by at least one participant, wherein the monitoring apparatus comprises game outcome determination means for determining the game outcome, and a determination device for determining the winning number and/or winning number combination and/or winning number matrix from the determined game outcome.
