Abstract (en)

A washing machine (100) comprising: a washing tub (125); a drum (130) rotatably accommodated within the washing tub; a draining sump (160) fluidly communicating with the internal of the washing tub (125) and fluidly connected to a draining circuit (170) operable for draining liquid from the washing tub; a filter (185) provided between the washing tub (125) and the draining sump (160) and accessible from the inside of the drum through a drum aperture (205). The washing machine (100) comprises a lighting device (305) arranged for generating a light which is emitted inside the drum (130) for helping a user to find the location of the filter (185).
