Abstract (en)
[origin: EP2708818A2] The device has a variable cooking surface (14) which is provided with an indication unit (16) that is adapted to select a cooking zone of variable cooking surface. A control unit (18) which is configured to select the function of inputs took place in the to-be-identified cooking zone of variable cooking surface through a navigation unit (30). The indication unit is configured to mark the selected to-be-identified cooking zone, which is arranged separately from the navigation unit. An input unit (19) is adapted to input operational parameters of cooking zone. An independent claim is included for method for operating cooking hob device.
