Abstract (en)
[origin: WO2012156075A2] The invention relates to a multiple relay arrangement consisting of a plurality of relay sockets (1) which are arranged next to each other and a plurality of relays (2). The relay sockets (1) contain additional plug connections (13) by means of which the relays (2) are controlled by the system cabling. Said system cabling contains a distribution section (53) consisting of cable sections (52) and plug connectors (33) and allows the plurality of relays (2) to be controlled.
