Abstract (en)  
[origin: EP2711194A1] A transportation system transports the book block through individual processing station, and has closed guide tracks (4) with straight, circular and curved portions, and clamps for clamping the book blocks. The fixed guide rollers (1,1a) are attached on guide carriages (2) in triangular form, and the staples are driven together or individually on a drive. The two guide rollers roll on master guide track (10) and the third guide roller roll on slave guide track (11) according to mathematical and geometrical laws. The carriage is coupled to drive which is arranged outside the guide path.
