Abstract (en)

[origin: EP2711313A1] The support (10) has a suspension part (12) fixed to a peripheral edge (13) of a waste collecting tank (2), and a support part (14) for supporting a green waste bag, where the waste collecting tank includes an upper opening (4) delimited by the peripheral edge. The suspension part is attached to a tubular part of a handle (8) of the tank, so as to be pivotable about the handle for emptying the tank. The support part includes raised portions to avoid slip of the waste bag supported on the support part, where the support is made of wire, polymer or vegetable fibers.
