Abstract (en)
[origin: EP2711649A1] The screw-in heating device (1) has an electrically operated heating unit and a data transmission unit (4) for receiving an instantaneous feed power from a feed counter. A control unit (3) controls the heater power of the electrically operated heating unit depending on the received instantaneous feed power. The electrically operated heating unit is a tubular heating element (2) or a resistance-heating device.
