Abstract (en)

[origin: EP2712970A1] The structure has a set of vertical support elements (1) that is fixed on a ground by a set of bases (4). A set of horizontal support elements (2a, 2b) is placed on the vertical support elements. A set of rectangular cover modules is arranged in which the horizontal and vertical support elements and the structure form a framework. The vertical support elements are connected with parallel horizontal support elements provided in a specific shape for presenting two parallel support zones.
