Abstract (en)
[origin: EP2713675A2] The induction cooking device (10) is composed of induction heating units (12,14,16,18) and control unit (20). Vessel (22,24,26,28) containing contents to be cooked is set up on the respective induction heating unit for heating and cooking of the contents. The control unit is provided for controlling operating parameters of the induction heating units, and the controlled operation parameters are displayed on display (32) of output unit (30). An independent claim is included for a method for operating the induction cooking device.
