Abstract (en)
[origin: CA2835513A1] Method for lowering loads (18) down a rope from a platform, comprising the following steps: lowering a descent rope (22) from the platform, lowering a counterweight (26) down said descent rope in a controlled manner to a lower end position, which counterweight is connected to the descent rope (22) by means of a braking device (28) to limit the lowering speed, and lowering at least one load (18) down said descent rope (22) before the counterweight (26) has reached its lower end position.
