Abstract (en)
[origin: WO2012167930A1] The invention relates to a hot formable strip, sheet or blank which is formable at a temperature of 600° C or above, comprising a substrate of hot formable steel coated with a corrosion protective coating. According to the invention, the coated steel substrate is covered by a siloxane layer. The invention also relates to a process to produce such strip, sheet or blank, a method for hot forming a product using such a strip, sheet or blank and a hot formed product using such a strip, sheet or blank.
