Abstract (en)

[origin: WO2012168384A1] The invention relates to a mounting system for a solar module arrangement, comprising a mounting element (100), a mounting bracket (200), a mounting adapter (300) and a profiled rail (400). Said components are adapted to each other such that the mounting adapter (300) can be mounted in the mounting bracket (200) without the danger of it tipping.
