Abstract (en)  
[origin: CA2835171A1] The invention relates to a coaxial plug-type connector with an outer conductor (1), an inner conductor (3), and an insulator (5) connecting the outer conductor (1) and the inner conductor (3), wherein the outer conductor (1; 1') has an axial contact area for making electrically conductive contact with another coaxial plug-type connector. The invention is characterized in that the axial contact area of the outer conductor (3) is provided with one or more projections (10).
