Abstract (en)  
[origin: EP2719301A1] The present invention relates to a mascara having a rotatable contact brush. According to the present design, comprised are: a container main body in which a mascara liquid is stored; a handle which is coupled to an opening side of the container main body so as to be sealable; and a coating member, which is extendedly formed on one side of the handle, is inserted into the container main body when the container main body and the handle are coupled, and which is provided with a brush that is rotatably provided at an end portion of a brush rod for selectively performing one effect from volumizing, curling, lengthening, and cleaning, while rotating when coating the eyelashes with the mascara liquid, thereby enhancing volume, curling, lengthening, and cleaning by means of the rotation of the brush when coating the eyelashes with the mascara liquid.
