Abstract (en)

The invention relates to a process for producing a fiber web in which process by surface sizing of the web sizing agent is applied onto the fiber web. The sizing agent comprises a mixture of at least two different starch solutions and that the fiber web is heated and/or dried before or after or during the surface sizing. The invention also relates to an arrangement for producing a fiber web. The arrangement for producing fiber web (W) comprises means (11) to apply sizing agent that comprises partially native starch on the surface of the fiber web and means (10; B) for heating and/or drying the web (W).
