Abstract (en)
Provided is a refrigerator having excellent assemblability. The refrigerator is provided with an insulation box body (12) and a fixture (51). The insulation box body (12) is formed in a box shape by combining a plurality of insulation walls having insulating members on the inside of thereof, and the box body has a storage chamber on the inside of the box-shaped body. The fixture (51) is provided at a corner part formed by two adjacent insulation walls of the insulation box body (12), and the fixture (51) connects and fixes the two insulation walls.
