Abstract (en)

[origin: WO2012171960A1] The invention relates to street ironwork including a frame (4), a manhole cover (6), a hinge (10) for pivotably connecting the manhole cover relative to the frame between a closed position and an open position, the hinge including a frame knuckle (20) and a manhole-cover knuckle (22). The street ironwork includes a locking element (40) attached to the manhole-cover knuckle and suitable for preventing the release of the manhole-cover knuckle from the frame knuckle in the open position and/or in the closed position.
