Abstract (en)
[origin: WO2012175278A1] The present invention relates to a strip processing device comprising a strip processing cartridge and intended for a rolling mill, and relates to a method for removing the strip processing cartridge from the strip processing device. The strip processing device comprises a strip processing cartridge mounted on a frame, wherein the strip processing cartridge is mounted on a bearing region, wherein the bearing region is open for the insertion or removal of the strip processing cartridge sideways and/or upwards out of the frame, and the strip processing device has a fixing mechanism for fixing the strip processing cartridge on the bearing region.
