Abstract (en)
[origin: WO2013165427A1] Using persistent party rooms, including: initializing, via a computing device, a global array according to a hierarchical server architecture; determining, via the computing device, whether or not to create a new persistent party room or to join a previously bookmarked persistent party room; creating, via the computing device, the new persistent party room within a position indexed in the global array; and joining, via the computing device, the previously bookmarked persistent party room by searching for the previously bookmarked party room utilizing the global array.
