Abstract (en)

[origin: EP2725559A1] The device has a first flue module (26) to remove the value notes in a first receiving area from a first money box (18) and to supply the value notes to the first money box. A second flue module (28) removes the value notes in a second receiving area from a second money box (20) and to supply the value notes to the second money box. A drive unit (38) is provided, such that the first and second flue modules are coupled together by a coupling unit (42) to drive the flue modules by the drive unit.
