Abstract (en)
[origin: US2013002099A1] A merchandise display system including one or more display units. The merchandise display system may include a base unit having a refrigeration unit that cools one or more display units. The refrigeration unit may be removable from the base unit. The one or more display units may attach to another display unit or a base unit. The display units may be stackable on top of one another or may abut the back side of another display unit. The display units may also be configured to attach to the base unit. The one or more display units may include a plurality of shelves and one or more doors, which allow access to display units.
