Abstract (en)

A description is given of a modular screen element (1) for a modular structure for defining outside spaces, comprising a lower base element (2) and an upper element (3), each one constituted by a respective frame (4, 6) enclosing a corresponding panel (5, 7), the frame (20) of the upper element (3) being housed in seats (13) of the frame (10) of the lower element (2), so as to be able to slide vertically with the aid of electromechanical actuation means (30, 31, 32, 33, 33', 34).
