Abstract (en)
[origin: WO2013003871A1] The invention relates to a drawer (3) comprising a front panel (8), a lateral drawer wall (10) and an attachment element (12) arranged at least partially over the drawer lateral wall (10), wherein the attachment element (12) is intended to be fastened to the front panel (8) by way of a fitting body (13) separate from the drawer lateral wall (10), wherein the fitting body (13) comprises at least one fixing point (21) for fixing to the front panel (8) and a recess (15) for receiving the attachment element (12), wherein after completed mounting of the fitting body (13) on the front panel (8) the attachment element (12) can be brought into the recess (15) of the fitting body (13), wherein the attachment element (12) can be brought into the recess (15) of the fitting body (13) and can subsequently be pivoted about a notional axis running substantially vertically in the mounting position.
