Abstract (en)

[origin: WO2013005102A1] Technical cap made of composite material and method suitable to enable the production of fizzy and sparkling wine through the fermentation in a capped bottle by means of the said technical cap and in an autoclave. In the present case the said method consists in maintaining the secondary fermentation or re-fermentation yeasts, inside the bottle, keeping intact, inside the bottle re- fermented wine, without the addition of sulphites.
