Abstract (en)  
[origin: EP2730525A1] The waste container cabinet (1) comprises an insertion lid (2) that covers an insertion aperture. The waste is thrown into a waste container through the insertion aperture. An operating element (3) is provided to open the insertion lid. The operating element is actuated as a separate element spatial of the insertion lid and is decorated as a locking element to enable the unlocking of an opening of the insertion lid.
