Abstract (en)

[origin: WO2013090298A1] Systems and methods for creating, editing and publishing cross-platform interactive digital content works include a content management component configured to store portions of a digital content work and to implement version control of the digital content work; a defect tracking component configured to store a defect record related to a stored portion of the digital content work; a publication pipeline component configured to format the digital content work for publication; and a integration component configured to present a graphical user interface which allows for editing the stored portions of the digital content work, editing the defect record, and instructing the publication pipeline to format the digital content work for publication.
