Abstract (en)
The covering (2) has an outer cover fabric sewn at a closed covering by a joining seam (3) of an edge region (7) of the covering, where a filling material is filled at interior of the fabric. The joining seam of the edge region is extended parallel to outer edges (5, 6) of a rectangular blanket (1), where the edge region comprises breadth (15) of 5 cm, and the covering is viewable from top. The joining seam is identical with a quilting seam (8) or extended parallel to the quilting seam at a distance of less than 2 cm. The quilting seam is extended parallel to diagonal direction of the blanket.

Abstract (de)
Um die Verbindungsnähte (3) der Hülle (2) aus dem Randbereich (7) soweit als möglich zu verbannen, werden die Zuschnitte (12) so gestaltet, dass die Verbindungsnähte (3) zumindest nicht im Randbereich (7) entlang der Außenkanten (5, 6) der Steppdecke verlaufen, sondern den Randbereich (7) höchstens kreuzen.
