Abstract (en)

[origin: WO2013013880A1] A gas discharge lamp (100, 200) according to one embodiment has a discharge vessel (101). The gas discharge lamp (100, 200) also has a getter material (102) in the discharge vessel (101), wherein the getter material (102) has been introduced into the discharge vessel in anhydrous form. In a method (500) for producing a gas discharge lamp according to a further embodiment, getter material is introduced into a discharge vessel of the gas discharge lamp, wherein the getter material is introduced into the discharge vessel in anhydrous form.
