Abstract (en)

[origin: EP2740376A1] The present disclosure relates to a garment (10) adapted to be associated with an inflatable element (12) for the protection of a user. The garment (10) includes at least a first garment portion (16) and a second garment portion (17) adapted to be connected to said first garment portion (16). The first garment portion (16) defines a covering surface (18) adapted to cover the inflatable element (12). The second garment portion (17), in a condition of connection with the first garment portion (16), partly overlaps the first garment portion (16) and is arranged over a part of said inflatable element (12).
