Abstract (en)
Seating furniture The seating furniture (1) configures a bench comprising two side frame members (2a, 2b), each having two legs (3) connected to a seat-supporting cross member (4) from which a backrest-supporting post (6) upwardly extends, seat slats (16) connected to the cross members (4) and backrest slats connected to the posts (6). The seat slats (16) are secured to first planar profiles (17) forming a seat assembly (5) which is secured to the cross members (4) by means of first mounting screws inserted in through holes of the cross member (4), and the backrest slats are secured at their ends to second planar profiles forming a backrest assembly which is secured to the posts (6) by means of second mounting screws inserted in through holes of the posts (6).
