Abstract (en)

[origin: CA2865276A1] The invention relates to a method for mounting an end strip (18) without using screws, comprising the following steps: providing at least one end strip holder (10); introducing at least one end strip holder (10) into the movement groove (S) between the floor or ceiling cladding (F) and the wall (W) until the at least one end strip holder (10) rests on the subfloor (U) with the subfloor leg (12) thereof; rotating the end strip holder (10) about a substantially vertically extending axis until the subfloor leg (12) engages under the floor or ceiling cladding (F) and extends substantially orthogonally with respect to the wall (W); and bringing the end strip (18) in engagement with the engagement section (16) of the end strip holder (10). The invention further relates to an end strip holder (10) for carrying out said method.
