Abstract (en)

[origin: EP2743393A1] The present invention relates to a front-loading laundry washing machine (1) for household use, in particular a washing or washing/drying machine, comprising a cabinet (2) within which a tub (3) is arranged, and having a load opening (4) that can be closed by a door (6) constrained to said cabinet (2), said door (6) comprising: - a porthole glass (7); - a frame (8) supporting said porthole glass (7) and adapted to abut against said cabinet (2), in particular in adjacency to the load opening (4); - dispensing means (9) for dispensing at least one agent for treating at least one laundry item. The invention is characterized in that said door (6) comprises coupling means (7C, 7E) adapted to associate said porthole glass (7) with the frame (8) so as to allow said porthole glass (7) to move in order to switch from a closed position to an open position relative to the frame (8), and vice versa, and so as to allow said porthole glass (7) to stay in said closed position relative to the frame (8), said dispensing means (9) comprising at least one reservoir (91, 92) associated with said porthole glass (7), in particular with an inner surface (71) of said porthole glass (7).
