Abstract (en)  
[origin: WO2013040614A1] The invention relates to a piece of furniture (1) comprising at least two drawers (2, 3, 4) which lie one above the other and which comprise similar front panels (5) that can be removably connected to lateral walls (6, 7) of the drawers (2, 3, 4) via furniture fittings (10, 20). The furniture fittings (10, 20) can be fixed in bores (51, 52) of the front panels (5) using fixing elements (8) which lie one above the other. Each furniture fitting (10, 20) has three fixing points (11, 12, 13, 21, 22, 23) for the fixing elements (8), each said furniture fitting (10, 20) being fixed to the front panel (5) at only two fixing points (11, 12, 13, 21, 22, 23) of the furniture fitting (10, 20) by means of the fixing elements (8) in order to determine a different height of the front panel (5) relative to the lateral wall (6, 7) of the drawer (2, 3, 4).
