Abstract (en)
[origin: EP2746487A2] The bracket (1) has two profile legs (2,3) each having outer surfaces (10,11) and inner surfaces (12,13), such that the outer and the inner surfaces are connected along corner longitudinal edge (6) of bracket main portion. The two outer surfaces of the profile legs are connected over an external connection portion (14), and the two inner faces of the profile legs are connected over an inner connection portion (15). The material thickness of the profile legs in the region of free longitudinal edges (4,5) is greater than thickness in the subsequent regions (8,9) of the profile leg.
