Abstract (en)  
[origin: EP2746516A2] The closure system has two adapter pieces (5) interlocked in a closed position of the door, flap or shutter at adjacent components of the furniture. The adapter pieces have form-fitting interlocking projections. The adapter pieces are formed in multi-sections. A component of the adapter pieces having the projections is fixed in two positions in another component having the former component. The projections are arranged on the former component such that they engages in form-fit manner two components of the furniture piece in mutually different positions in the former component fixed to the latter component.
