Abstract (en)
[origin: WO2013039536A1] A flexible packaging container is provided. The container is formed of a first flexible film. The container comprises a cavity for receiving a dispensable product, a first sidewall and a second sidewall opposite the first sidewall. The container also comprises at least one strap formed of a second flexible film, the strap located within the cavity. The strap has a first end connected to the first sidewall and a second end connected to the second sidewall.
