Abstract (en)

[origin: EP2754507A1] The mobile high pressure cleaning apparatus (20) has an undercarriage (120) that is arranged with a booth (100). A high pressure nozzle is connected with a high pressure terminal (110). A positioning device is provided for positioning the high pressure nozzle within the booth. The booth is comprised with a lockable feed aperture. The booth is comprised with extensible portion for fixing positioning device which is transverse to a longitudinal direction of the booth.
