Abstract (en)

[origin: EP2754815A2] The fitting has a connector rail (6) fastened at a stationary frame rail. A scissors element (1) with scissors members (2, 3) is attached to the connector rail. A supporting strip (4) is hinged at a free end of one of the scissors members for fastening a window leaf or door leaf. A double-armed lever (5) is swingably supported at a free end of another scissors member and articulated on the supporting strip, where the lever is displaceably held on the connector rail. The connector rail is provided with a supporting element e.g. roller, for supporting the double-armed lever.
