Abstract (en)

[origin: WO2013039937A1] The present invention provides methods of enhancing the health of a plant, of promoting the growth of a plant and of improving fruit ripening. The methods comprise applying at least one terpene or terpenoid compound to the plant or a plant part, or to the fruit or a plant carrying the fruit, and/or applying to an area around a plant or plant part or around a fruit.
