Abstract (en)

[origin: US2013065490A1] A method of refurbishing vinyl composition tile flooring includes sequentially wet abrading an exposed surface of a vinyl composition tile floor with a series of structured abrasive members affixed to a machine driver pad, wherein the series of structured abrasive members have decreasing abrasive particle size. The method may include a prior abrading step using an aggressive nonwoven abrasive article. The method may include application of polymeric finish after abrading.
