Abstract (en)

[origin: WO2013037710A1] The invention relates to a drain (1') for a floor-level shower, comprising at least two drain bodies (2) and at least one connecting body (40, 40', 40'', 40'''), via which at least two of the drain bodies (2) are connected to each other in a releasable manner and which is provided with at least one seal (7) associated with the connected drain bodies (2). At least two of the drain bodies (2) are provided with at least one recess or mounting (30) at the drain body ends facing away from the connecting body (40, 40', 40'', 40''') for bearing an end of a rod-like body (5) which extends along and within the inlet opening (2.2) of the drain body (2) in the assembled state.
