Abstract (en)

[origin: EP2756928A2] The tool (100) has a first region (154) is provided with a first approximately oval cross-section (162) with a first major axis and a first minor axis. A second region (156) is provided with a second approximately oval cross-section (164) with a second major axis and a second minor axis. A third region (158) is provided with a third approximately oval cross-section (166) with a third major axis and a third minor axis. The first major axis and the third major axis are longer than the second major axis. A first minor axis is shorter than the second and third minor axes. Independent claims are also included for the following: (1) a tool housing for a hand-held power tool (2) an ergonomic handgrip.
