Abstract (en)
[origin: WO2013041078A1] A plug-type element for making contact with a printed circuit board comprises an insulating body. At least one electrical contact which has at least two spring elements is arranged in the insulating body, wherein each spring element has at least one printed circuit board contact (121, 122). In particular, the plug-type element can be a plug-type connector, a relay socket or a safety plug.
