Abstract (en)

[origin: EP2574025A1] The terminal (20) has a near field communication (NFC) interface, and another NFC interface e.g. wireless NFC interface such as Bluetoothinterface, entering into communication with a fixed or mobile computer (10). A software unit e.g. phone soft, establishes communication between the computer and an NFC card (30), and is installed in a safety element e.g. subscriber identity module (SIM) card, of the mobile terminal. An independent claim is also included for a communication system between an NFC card and a computer.
