Abstract (en)

A feeder apparatus (30) for feeding a sheet of material in a sheet processing apparatus is disclosed. The feeder apparatus comprises a main body (66) and a pusher head (52) moveably mounted relative to the main body and moveable between a first orientation, in which the pusher head engages a sheet of material to feed the sheet in a sheet processing apparatus, and a second orientation, in which the pusher head allows movement of the sheet relative thereto.
