Abstract (en)

[origin: WO2013013650A1] A water basin, such as, for example, a swimming pool, consisting of a tank which can be filled with water and edge stones arranged in a row against one another at the edge of the tank and of an illumination which extends in the region of the edge, wherein at least one of the edge stones consists at least partially of transparent or translucent material and has arranged in its interior at least one light source of which the light rays can exit through the transparent or translucent regions of the edge stone.
